

## Hose Fabricator Job Description

### **Role Overview:**

The Hose Fabrication Technician is primarily responsible for the sale and fabrication of hydraulic, pneumatic, and petrochemical hoses and their associated hardware. The hose may be fabricated in our shop, or at a customer's location in our mobile fabrication unit.

### **Key Responsibilities:**

- Develops new industrial rubber business through the cultivation of relationships in new and existing accounts
- Performs various fabrication procedures without supervision such as, cutting hoses to size and attaching components to manufacturer specification and NAHAD Hose Assembly Guidelines for industrial customers
  - Hydrostatically pressure test hose assemblies for leak detection, as directed.
  - Receives and verify incoming parts, material, and supplies; maintains stock areas; prepares sales orders.
  - Detects and reports equipment, defective material, improper operations, and unusual conditions to supervisor. Works in manner that insures the safety of everyone involved. Exercise proper care in the use of tools and equipment.
  - Maintains quality service by following organization standards.
  - Maintains safe and clean work environment by keeping shelves, pallet area, and workstations neat; maintaining clean shipping area; complying with procedures, rules, and regulations.
  - Completes reports by entering required information.
  - Maintains technical knowledge by attending manufacturer-training program, in-house workshops, and reviewing publications.
  - Contributes to team effort by accomplishing related results as needed.

### **Academic Requirements:**

High School graduate or equivalent; and a minimum of two years manufacturing/hose fabrication experience. Must possess the ability to accurately use measuring tapes and do basic math. Equivalent combination of education and experience will be considered. Reading, writing and communicating effectively in English is essential to this position. Applicant must have, and maintain a clean driving record.

### **Physical Requirements:**

Stand for long periods of time  
Bend down to work with hose lengths on the floor  
Able to lift 50-75 lbs
